FAMILY 2 FAMILY...

...A PARTNERSHIP WITH THE

SAN BERNARDINO COUNTY
DEPARTMENT OF CHILDREN'S
SERVICES

*...protecting children
...promoting families
...building bridges with the community*

Desired Outcomes for Children in Our Communities

The vision of the San Bernardino County Department of Children's Services is to promote healthy children and families in our community by:

- ❖ Reducing the number and rate of children placed away from their birth families.
- ❖ Increasing the number and rate of children coming into foster care who are placed in their own neighborhoods and communities.
- ❖ Reducing the number of children served in institutional and group care and shifting resources from group and institutional care to kinship care, family foster care, and family-centered services.
- ❖ Decreasing lengths of stay of children in placement.
- ❖ Decreasing the number and rate of children re-entering placement.
- ❖ Reducing the number of placement moves children in care experience.
- ❖ Increasing the number and rate of brothers and sisters placed together.
- ❖ Reducing any disparities associated with race/ethnicity, gender, or age *in each of these outcomes*.

Family to Family

Goals for Child Welfare and the community.

To achieve these results, **we are committed to the following changes in child welfare:**

- ❖ Developing a network of family foster care that is neighborhood-based, culturally sensitive, and located primarily in communities in which children currently live.
- ❖ Ensuring that all children, who come into foster care, including teens and brother-sister groups, are routinely placed with families.
- ❖ Increasing the number and quality of neighborhood foster and kinship families to meet projected needs.
- ❖ Providing the services birth families and children need in a timely enough manner that they can be safely reunited as soon as possible.
- ❖ Screening children being considered for removal from home to determine what help their family needs to keep them safe, to make that help available when it is most needed, and to better support the children who must be placed.
- ❖ Involving birth parents, foster parents, and kinship families as team members with our agency and with one another.
- ❖ Becoming a neighborhood resource for children and families by investing in the capacity of communities where large numbers of families involved in the child welfare system live.

Best Practice Principles

- ❖ Family-Centered
- ❖ Strengths-based
- ❖ Needs-driven
- ❖ Solution-Oriented
- ❖ Community-based

Strategies in Our Work

To achieve the Family to Family goals, **we are committed to the ongoing use of four strategies or tools:**

❖ Recruitment, Training and Supporting Resource Families

Finding and maintaining foster and kinship families who can support children and families in their own neighborhoods.

❖ Building Community Partnerships

Establishing relationships with a wide range of community organizations in neighborhoods where referral rates to the child welfare system are high and collaborating to create an environment that supports families involved in the child welfare system.

❖ Making Decisions as a Team

Involving not just foster parents and caseworkers but also birth families and community members in all placement decisions to ensure a network of support for the children and for the adults who care for them.

❖ Self-Evaluation

Collecting and using hard data about child and family outcomes to find out where we are making progress and to show where we need to change.

We invite you to join us, in reaching our goals for children and families.
